

US Skywalker V2 Group Buy Update

11/29: Original ship date delayed due to circuit board testing.

Thank you!! Do you know estimated ship date of the first order?

5:48 PM ✓✓

In the last test, the circuit board still had room for improvement, and the engineer took a closer look at the circuit board because the V2 circuit board is equipped with chips and will be a little more complicated than the V1. I need to double check the ship date.
